

Social Compliance

Silgan is a leading global sustainable packaging provider for consumer goods products to many of the world's best known consumer products companies. We partner with our customers to enable them to bring their essential products to the world in the most efficient, sustainable and cost-effective packaging formats. As a global producer of packaging materials and services, Silgan Closures fully recognizes its responsibility to act as a responsible corporate citizen.

We as Silgan Closures, are committed to ensuring that all our locations align with complying laws, internationally recognized guidelines and principles, including relevant ILO (International Labour Organization) conventions and UN conventions, as well as with the Ethical Trading Initiative (ETI) Base Code.

SEDEX & ECOVADIS

Given the industry's diverse approaches to managing social compliance and sustainability, Silgan Closures has chosen to participate in the Supplier Ethical Data Exchange (SEDEX) and ECOVADIS platforms. This decision enables us to centralize and streamline our ethical reporting, and as a result, we do not sign individual ethical questionnaires or compliance confirmation letters.

Silgan Closures' Commitment

SEDEX is a membership organization dedicated to helping companies improve the ethical performance of their supply chains. By being a member, Silgan Closures demonstrates its commitment to ethical business practices and continuous improvement. Our compliance performance, including self-assessments and external audit results, is available through SEDEX. For further details, our membership registration number is ZC1002644.

At Silgan Closures, we are committed to upholding the highest standards of social responsibility, transparency, and sustainability throughout all our operations. This approach ensures that we work not only to meet but also to exceed expectations for ethical conduct in the global packaging industry.
